Treatment	When used	Rate the Treatment	Notes
<i>Rx Hydrocortisone Ointment 2.5% on face & scalp only</i>	<i>October - Present 2017</i>		<i>Takes several days to clear on face</i>
<i>Rx Triamcinolone Acetonide (Ointment) 0.1%, apply on body only</i>	<i>October - November 2017</i>		<i>Takes a couple days to clear on body</i>
<i>Rx Mupirocin 2% on stubborn flare-ups (on face)</i>	<i>November - December 2017</i>		<i>Takes a few days to clear on face</i>
<i>Rx Elidel</i>	<i>October - November 2017</i>		<i>Helped clear on "steroid off days" but stopped because of "black box warning"</i>
<i>Rose Hip Oil & Shea Butter</i>	<i>December - Present 2017</i>		<i>Use on minor rashes and help moisturize throughout the day, saw immediate results (2 days)</i>
<i>Touchy Skin Healing Salve</i>	<i>December 2017</i>		<i>The salve was too thin, bottle was too small and didn't moisturize well, had to reapply hourly</i>
